

CLS 10 HG / CLS 10 HG70V

Indoor/outdoor horn loudspeaker

Easy
mounting

Flexible
to use

High
volume

Assertive in every situation

The CLS 10 HG is suitable for speech and music signal transmission and can be used both for indoor and outdoor applications. Self-extinguishing ABS housing material in combination with a multi-stage swivel bracket made of V4A stainless steel (1.4571) resistance category III ensures durability and safety. The M20 cable gland provides protection against heavy water penetration. An additional hole in the pressure chamber allows the water to drain off after cleaning. This horn comes also equipped with a high-pass filter.

Features and highlights

- Suitable for outdoor use
- Wide operating temperature range thanks to particularly resistant materials
- V4A stainless steel (1.4571) mounting bracket
- Can be combined with any 70/100 V Series AF Commend amplifier

Installation instructions

Mounting instructions

- Do not install the device on unstable walls or on surfaces which cannot support the device's weight.
- When using dowels, make sure to clean the wall holes properly after drilling.
- This device shall be installed or replaced by trained and qualified personnel only, and only when the power supply is disconnected.
- Observe the country-specific standards for installation, mounting and configuration.
- Install or store this device out of the reach of children and do not allow persons unfamiliar with the device and these instructions to handle and operate the device.
- Use premounted cable glands only in order to fulfil the IP rating.
- To change the position of the loudspeaker, adjust the bracket as required (by loosening/tightening the screws).
- Use 3 screws with a diameter from 5 or 5.5 mm. Fastening, screw type and screw length depends on the mounting ground.
- All connected circuits shall fulfil the requirements for ES1 circuits (cf. SELV acc. IEC/EN 60950-1) and PS2 (Limited Power Source) as per IEC/EN 62368-1.
